

600-615 W

High Efficiency Bifacial Dual Glass TOPCon Module
TS-BGT78

Bifacial technology allows for the harvesting of up to an additional 25% energy from the rear side of the module.

30 years lifespan brings 10-30% additional power generation comparing with conventional P-type module.

N-type solar cell has no LID naturally which can increase power generation.

Excellent low irradiance performance.

Enhanced light trapping and optimized current collection contribute to the improvement of both module power output and reliability.

Industry leading lowest thermal coefficient of power.

Design optimized for lower operating current, resulting in minimized hot spot loss and improved temperature coefficient.

Certified to withstand: wind load (2400 Pa) and snow load (5400 Pa).

100% triple EL test enables remarkable reduction of module hidden crack rate.
